

# Differences between Japanese and foreign School rules

Kumamoto Kita High School

## Abstract

Many people are dissatisfied with or have questions about school rules and regulations, so they investigate school rules in depth.

## Back ground

Identify problems because some people are not having a satisfactory school life due to unfair school rules.

## Purpose

Compare school regulations between Japan and other countries, highlight problems and other issues, and propose solutions so that school regulations can be made to improve school life.

## How to research

Questionnaire for students and teachers in the school,  
School rules and regulations in the respective countries of the international students and ALTs.

## result

"Do you have any questions about the current North high school rules?"  
Yes 47% No 53%

## consideration

Since some of the respondents who answered no to the question also answered dissatisfaction or questions, it was found that more than a majority of the respondents were dissatisfied with the school rules.

## conclusion

In addition to the countries we surveyed this time  
We would like to talk to various countries in addition to those we surveyed this time, and present a better  
We would like to present a better draft of the school regulations.
